## Be ready at crunch time.

As a CFO, you're already experiencing both the joys and frustrations of managing your financial and business information, especially during crunch time.

Now, you too can have the **right answers** to questions **within minutes every time**:

**"Are those reports ready for month end?"**

**"Yes! And as you can see in this Excel spreadsheet..."**

**"How much revenue did we make on the Infinity project? I want to know how much we made in each region, I want it month to date, I want it for last quarter.... And current year to date."**

**"No problem. Let me show you the summary report right now..."**

**"What were our costs per region? Who sold the most product last week/month/quarter?"**

**"Oh, you will like this. We'll just drill down into Navision on the cost summary to get the details you're looking for..."**

Most CFOs like you want to be in control of your business and will want to be able to answer any questions right away.

Now, you can!
