Where will your information take you?

JetReports®

Visibility into your business.

Imagine

Imagine visibility into your business. Company consolidations, daily cash positions, financials and sales when you need them formatted to get your point across. With Jet Reports, your imagination (and expertise) becomes reality.

Distinctive

Jet Reports is different—it's all Excel, a program you know. Jet Reports gives you visibility into all of your business, including customizations to your system, multiple companies, modules and even multiple applications.

Painless

As a Jet Reports Designer, you are just steps away from a completed report with the Jet Wizard. You can drag and drop information right into Excel from your system. Formatting is no problem with Jet Reports—it's all Excel. Jet even allows you to automatically refresh and email your reports with its convenient Scheduler.

Reports

Jet Reports is visibility into your business that integrates your information with Excel. *Where will your information take you?*

It's all Excel so you can do it...no more waiting. Create it, modify it, format it, add a calculation, schedule it, email it—you are in control.

Jet Reports

Imagine visibility into your business.

You own an excellent accounting system; it lets you store all of the data you need about your customers, vendors, inventory, product sales, and financial position. But how much time do you spend transferring that data into spreadsheets?

Imagine getting all the information you want, when you want it, in the format you want. Financials, cash position, inventory, sales, customer reports, budgets, even project information is at your fingertips—all in Excel. Jet Reports is visibility into your business.

Where will your information take you?

The Jet Ribbon makes it easy to find what you need.

 **Jet Wizard**
With the Jet Wizard, you're just a few simple steps away from a completed report.

 **Jet Scheduler**
The Jet Scheduler allows you to automatically refresh and distribute reports by email to your designated recipients.

 **Jet Designer**
The Jet Designer provides visibility into your business. See all of your information then use the **Drag and Drop** feature to design your report.

 **Drilldown**
With Jet Reports drilldown, you are only one click away from your data.

 **Jfx**
With Jfx, you can insert report functions with ease. Jfx allows you to create formulas step by step using your data.

 **Universal Connector**
Jet Reports can connect to all of your applications.

 **Online Help**
Jet Reports provides comprehensive online help. Simply type F1 for tutorials and references.

Sales Summary & Details

Build reports quickly with these special Jet features.

Drag and Drop

With drag and drop, you can build reports by simply clicking on the desired fields in the Jet Designer window and dragging them right into Excel. It's that simple.

Connect to any application!

With Jet Reports you can connect to any of your other applications (SQL, OLE or ODBC compliant database). You can even connect to multiple applications in one report!

Ask about Jet Reports Fast Track training, a service designed for new users to enhance their Jet Reports purchase and to provide them with the tools they need to successfully utilize Jet Reports right away.

Any report. Any way. Right Now.™
